• M1.5

NOTES TO USER

Boundaries of the floodways were computed at cross sections and interpolated between cross sections. The floodways were based on hydraulic considerations with regard to requirements of the Federal Emergency Management Agency.

This map was prepared for the Federal Emergency Management Agency only; it may not show all special flood hazard activities in the community or all planimetric features outside of the flood area. Additional Flood Insurance Rate Map for any additional area of special flood hazard should be obtained from the Federal Emergency Management Agency.

Floodway widths in some areas may be too narrow to show to scale. Refer to Floodway Data Table where floodway width is shown at 1/20 inch.

For adjoining map panels, see separately printed Index to Map Panels.
