

PLANNING

Briefly describe the planning process used to formulate your proposal.

The USACE was responsible for performing an inspection of the levee structure and from that inspection the deficiencies were noted and were the basis for this project. Attached is a condensed summary from the full report.

SUSTAINABILITY

Indicate how the project will be maintained or the program continued in the future.

The City currently implements a maintenance program that visually inspects and cleans its storm and sanitary sewer collection systems and once this project is complete the new infrastructure will be maintained in the same manner as currently.

PROJECT/PROGRAM DESIGN – Attach maps, photos, site plans, drawings, schematic designs, etc. sufficient to adequately illustrate the project. For educational programs, please include a narrative description of the program, target audience, marketing plans, program sites, etc.

SCHEDULE

Project/Program will begin July 2013

Proposed completion date December 2013

IN-KIND ASSISTANCE REQUESTED
