RE: Massillon Local Flood Protection Project

Mr. Hanke:

This is in response to the letter received from FEMA regarding the above referenced project. The City of Massillon believes that this letter and accompanying agreement should have been sent to the United States Army Corps of Engineers for review and execution.

According to the Operation and Maintenance Instructions for the Massillon, Ohio Local Protection Project, ***"the levees, concrete wall and improved channel, including the control weir will be maintained by the United States"***. Therefore it is apparent that the responsibility to provide the requested information should be submitted from the USACE not the City of Massillon.

If you have any questions or need additional information please contact my office at (330) 830-1722.

Sincerely,

A handwritten signature in black ink, appearing to read 'K.A.D.', with a stylized flourish at the end.
