DESCRIPTION OF THE LATERAL SEWER ON S. ERIE ST. FROM CHESTER TO DWIGHT ST.

Manholes (2) as designated on Profile & Plan
Lateral Connection One 12 inch Caliber facing East on Edwin Street
There are eight 6" Y House connections on the west side on S. Erie St.
and 10.. 6" inch Y House connections on the East side of S. Erie St.
starting for the West side Connections opposite the South Line of Chester Street
and the Connection for the East side one foot North of the South Line of said Chester St.
all House and Lateral Connections are in cloud and marked with a Little Circle and a red cross
The Connections on Lots Nos 1022, 1023, 1024, & 1025 to be connecting for measuring
from the South west Corner of Edwin Street which is also the S. West Corner of Lot
No. 1022. all distances between Connections given on Plan, as here represented.

PROFILE OF LATERAL SEWER ON SOUTH ERIE STREET BETWEEN CHESTER & DWIGHT STREET

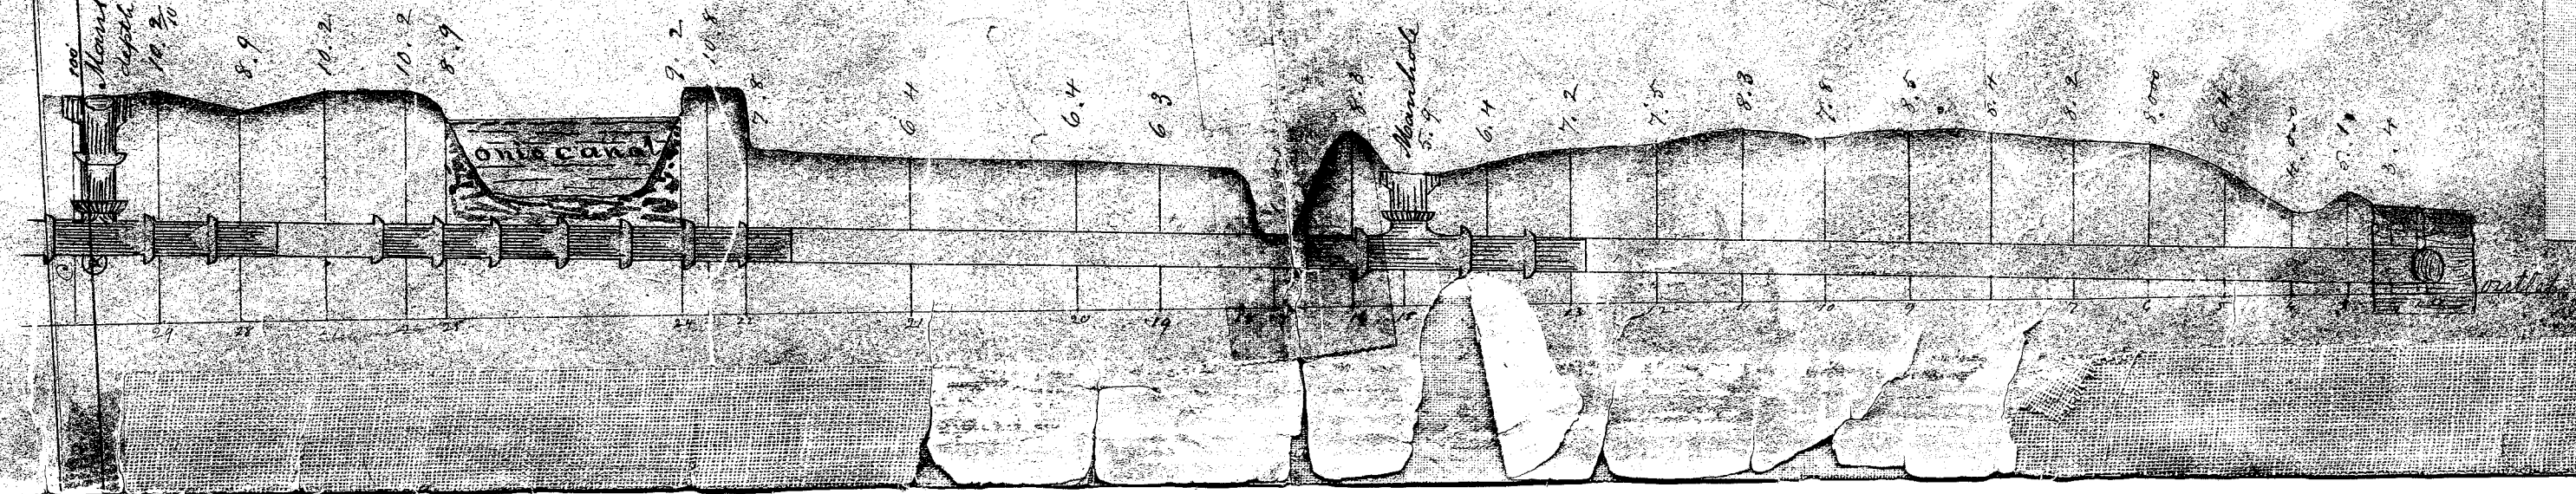

DESCRIPTION OF THE TRUNK SEWER

Said Trunk Sewer is constructed of 24 inch caliber sewer pipe and extends from the outlet on the River to the middle Line of South Erie Street, where junctions are formed for the extension of a Main Sewer of 24 inch pipe and two lateral junctions one to extend south on South Erie Street and one facing Eastwardly towards Chester Street.
Lateral sewer laid on South Erie southwardly is 15 inch Caliber pipe, said Connection is 34 feet eastwardly from the middle of Manhole depth 9 1/2 feet.
Lateral Connection for Chester Street eastwards 49 feet from middle of Manhole 12 inch Caliber Connection depth 9 1/2 feet.
The depth of sewer are marked on Profile below.

Connected to Main
Trunk Sewer at this
Point see plan
Sheet No Page 48

Abandoned to River

Green No3 = Server Permits

1" = 50
1" = 10

Beginning opposite the North Line of Chester Street. First connection is 25 feet distance from said Point and from thence all distances given between Connections. The first of Russell Connection on the said west Line of S. Erie Street is 27 feet south of the south east corner of Lower shops

PLAN & PROFILE OF S. ERIE STREET SEWER FROM STATION No. 66 SOUTH OF THE P.F.W. & CH. R.R. BRIDGE TO A POINT FEET SOUTH OF TREMONT ST.

REFERENCES AS TO THE SEWER
MANHOUS LATERAL HOUSE CONN^{ection}

The depth of some is marked with red figures above the Profile of Erie Street.

Gravel pits as designated therein.

Off House and Lateral Connections are Y Connections

Strut on Railroad Street facing East is 13 1/2 feet North of middle of Manhole and is a 12 inch Connection

Lateral Connections on E. South Street 12 inch Connection

Facing East 10 feet North of middle of Manhole

Lateral Connections have 8 inch 8 inch Connection is 24 feet North from middle of Manhole

All House Connections marked on plan for Street, and distances given between Connections from Street to Street, are on east side of Erie Street, Railroad ground Connection is 10 feet North of the south end of RR Bridge Pier

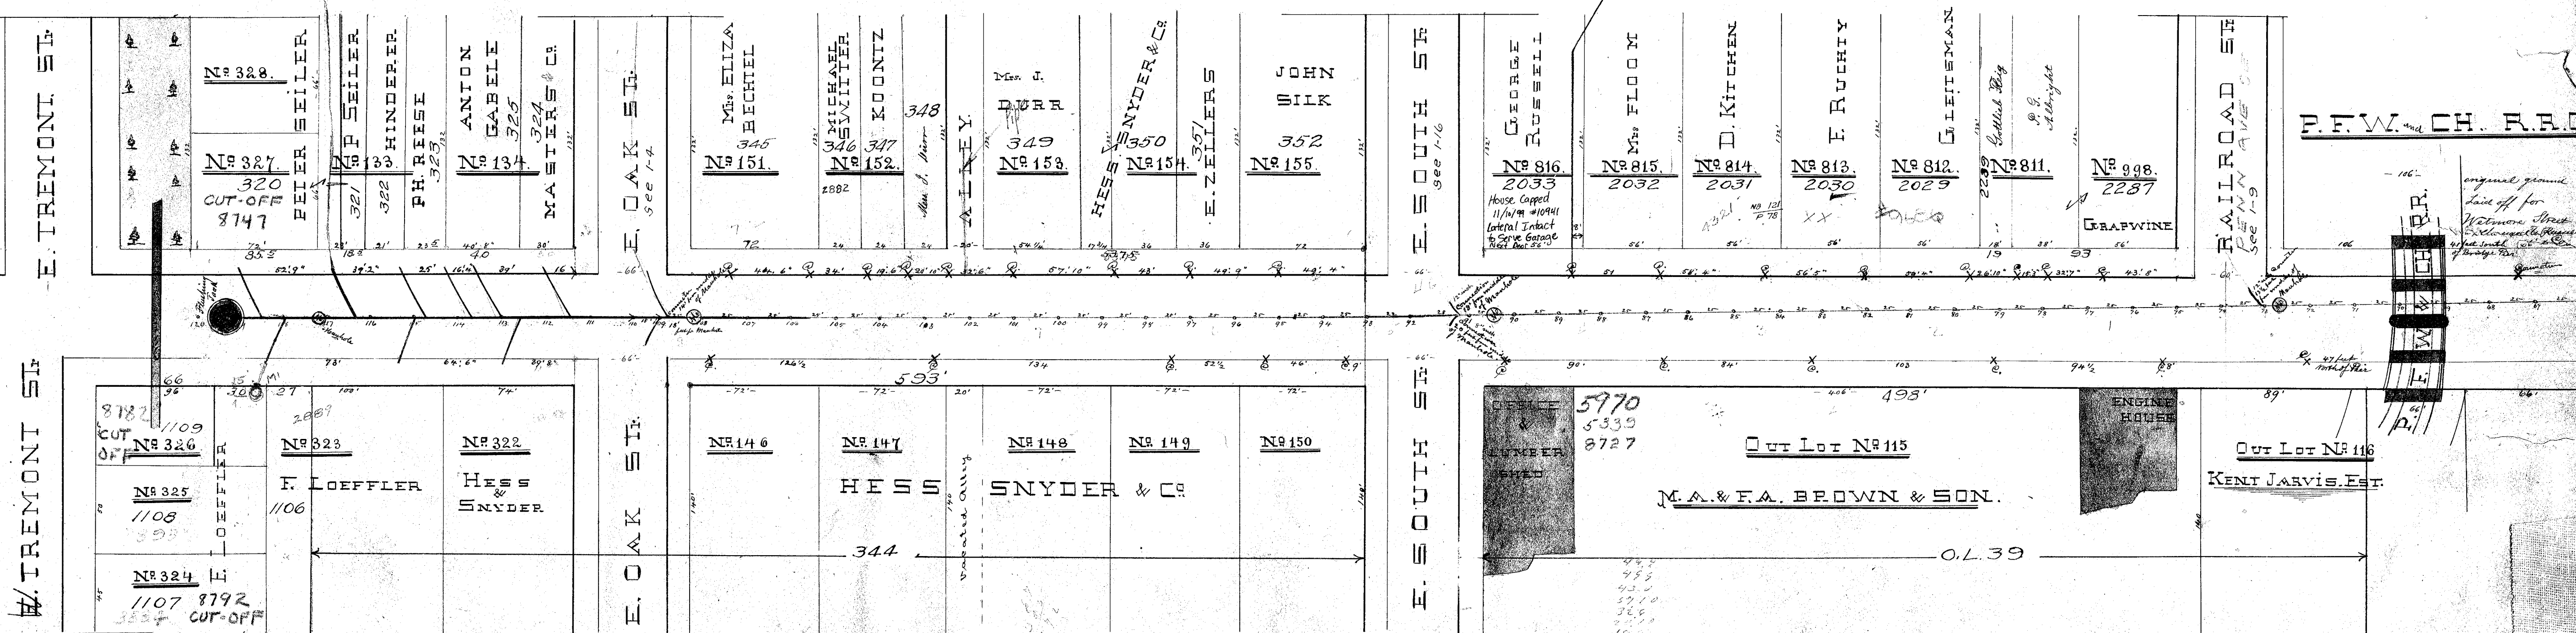

The House Connections between Railroad and E. South Street are Connections on the South west Corner of Lot 998 on Railroad Street

Extending to East side of West South Street.

The Connections from the West line of East South Street to the South line of E. Oak Street are also marked with red cross on Chart & Letter C above is Connection

The same refers to the west side of South Erie Street

REFERENCES AS TO THE HOUSE CONNECTION
BETWEEN EAST OAK & TREMONT ST.

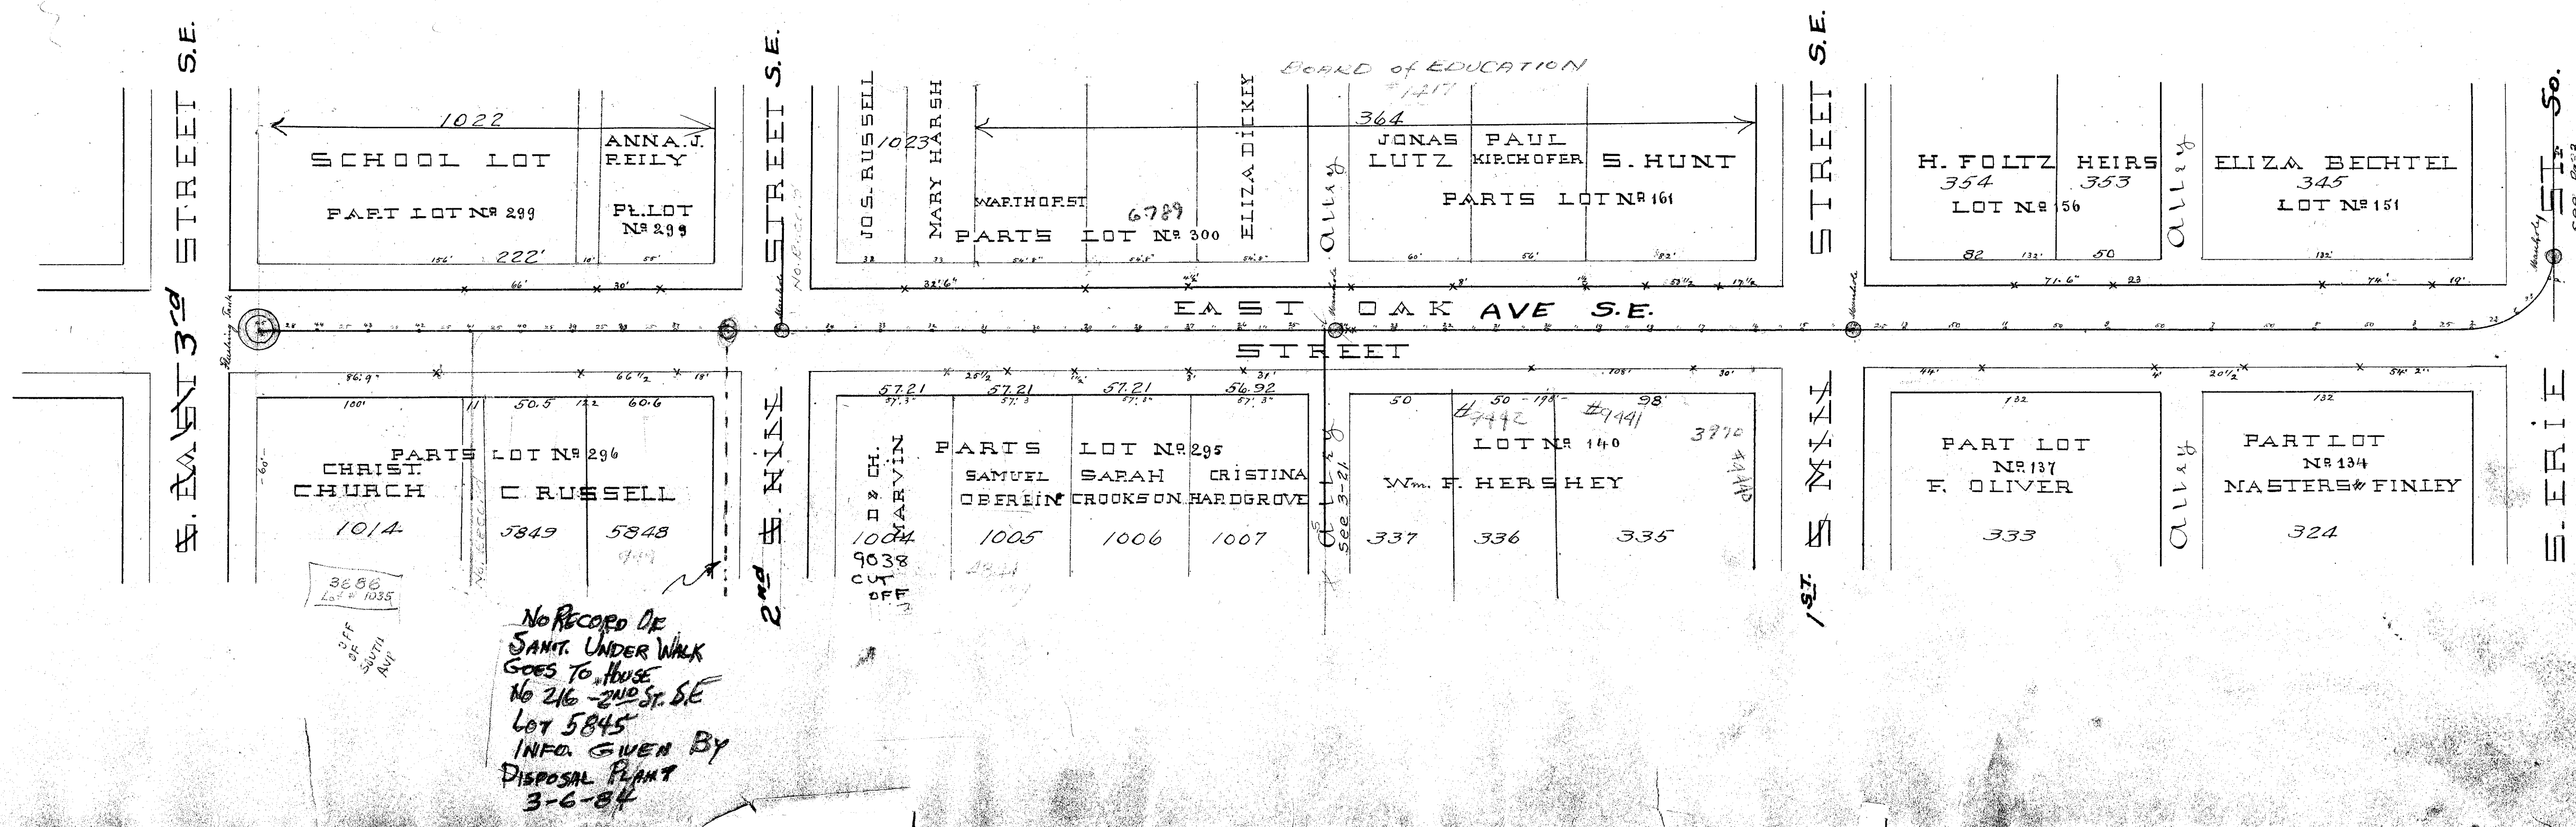

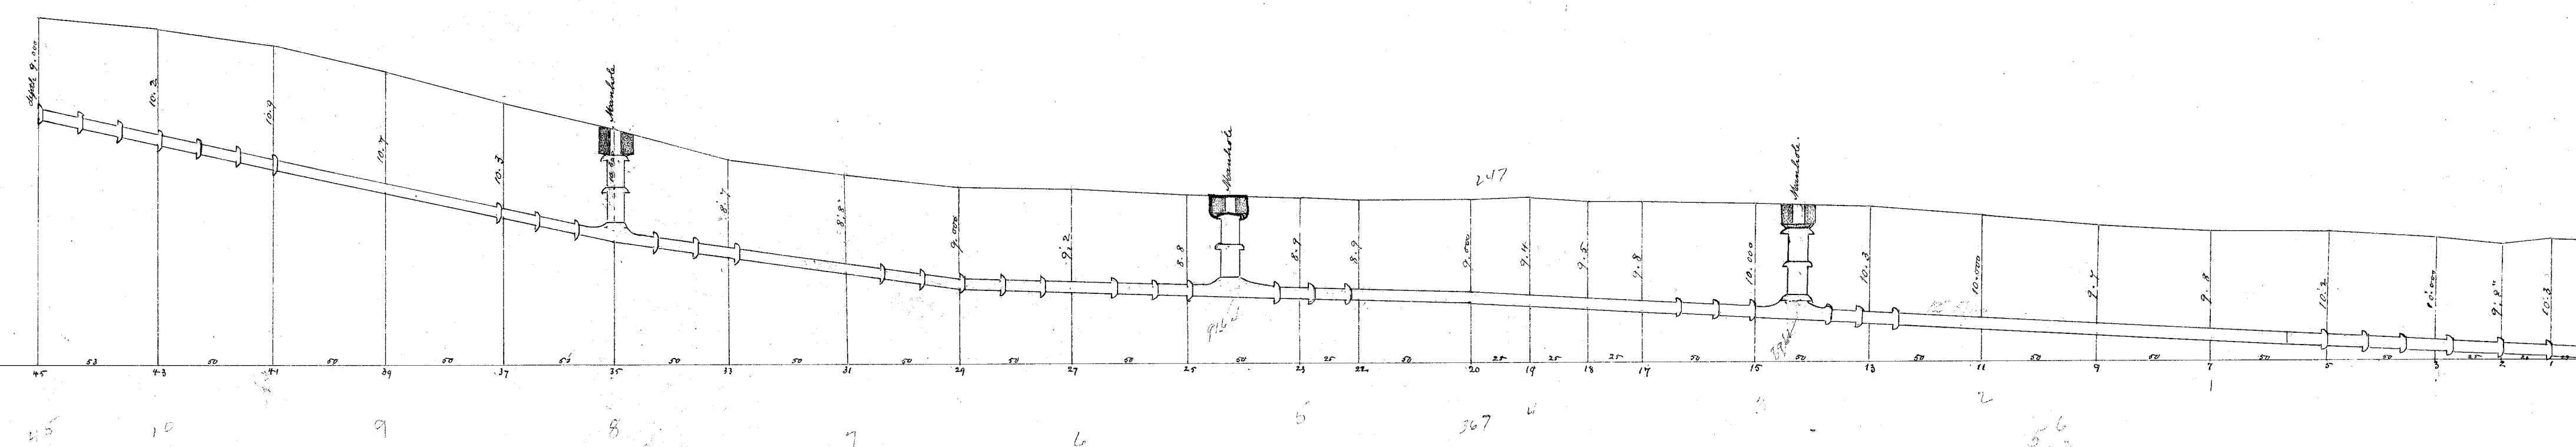

[illegible]

PLAN & PROFILE OF EAST OAK STREET SEWER BETWEEN S. ERIE & S. EAST STREET
IN SEWER DISTRICT N^o 3.

DESCRIPTION OF THE HOUSE CONNECTIONS

- House Connections South Side.
- Oliver Bechtel 1st Connection is 19 feet east from the east line of South Erie Street
 - Henry Kelly 2nd Connection is 7 1/2 feet east from the east line of the lot facing Oak St.
 - Samuel Hunt 2nd Connection is 11 1/2 feet east from the east line of South Erie Street
 - John Kirchhofer 1st Connection is 1 1/2 feet east from his west line facing Oak Street
 - Jonas Lutz 2nd Connection is 3 feet east of Manhole on alley
 - Ally Northport Connection is 4 1/2 feet east from her west line facing Oak Street
 - Samuel & Harsh Connection is 32 1/2 feet east from the west line of South Erie Street
 - Anna S. Reilly 1st Connection is 30 feet east from the east line of South Erie Street
 - School Lot 2nd Connection is 66 feet east from the east line of South Erie Street
- House Connections North Side.
- Masters & Finley 1st Connection is 54 1/2 feet east from the east line of South Erie Street
 - Frank Oliver 2nd Connection is 20 1/2 feet east from the east corner Westward
 - Wm. D. Kailey 1st Connection is 4 feet east from his west corner facing Oak Street
 - Caroline & Hardgrove 2nd Connection is 38 feet east from the east line of South Erie Street
 - Samuel & Berlin 2nd Connection is 108 feet east from the east line of S. Erie Street
 - Chas. & D. Harsh 2nd Connection is 3 feet east from her west line
 - Samuel & Berlin 1st Connection is 1 1/2 feet east from his west line
 - Chas. & D. Harsh 1st Connection is 2 1/2 feet east from his west line
 - Christina Church 1st Connection is 18 feet east from the east line of South Erie Street
 - Christina Church 2nd Connection is 86 1/2 feet east from the west line of East Street

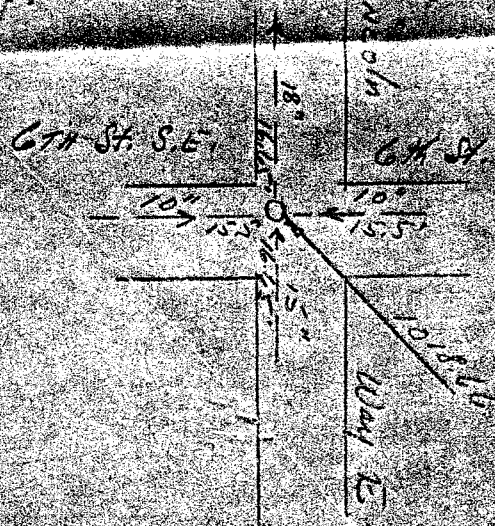

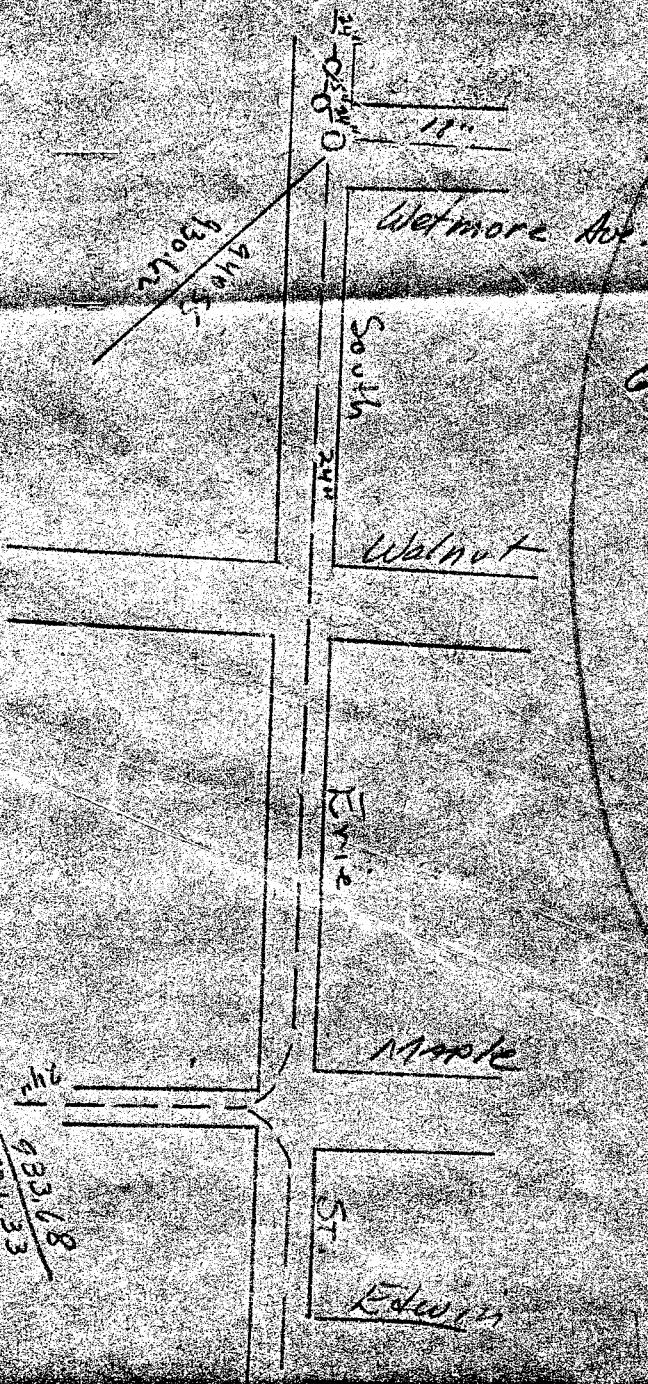

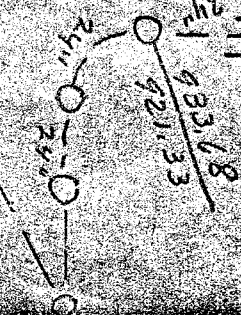

Lateral Connections
Two laterals on Mill Street one facing south and one facing north which are right
and 2' connecting right side of Manhole 17' 8" from the east line of Oak St. to the west line of Manhole
Two laterals on Erie Street one facing south and one facing north which are 8' and 10' and
the one facing north is 10 1/2 feet east from the east line of South Erie Street
Oak Street Sewer is constructed of 18" (8") inch cast iron pipe
