A5,235 43,435					\$127,750
or					
8.6 miles					

Were it desired to limit present expenditure, certain of this expenditure might be deferred, as for instance,--

Trunk #2 --through "Devils Pond"	\$4,400
#3A--part of New England Place	3,700
#6A--part of Marsh Hill Allotment	2,600
#7C--Corwin Avenue	1,000
#9A--Grape Street	3,500
TOTAL	\$15,200

It is evident that any considerable reduction from the total must come from the elimination of one of the longer lines.
